Like the other ships in the PONANT EXPLORERS series, *Le Bellot* has been designed to provide **absolute comfort** for its passengers, even at the heart of the world's most remote and isolated regions.

Racy lines, **state-of-the-art equipment**, a refined design, a softly muted and at the same time convivial ambiance together with a deliberately restricted number of cabins all contribute to the modernity of *Le Bellot*, a unique ship in the world of cruising.

All the 92 cabins and suites onboard *Le Bellot* are equipped with private balconies or terraces. Like the rest of the ship's spaces, they have been designed to be **exceptionally open to the exterior**. Brightness and radiance, discreet luxury, ethnic touches, contemporary design and unparalleled levels of comfort add the finishing touches to the all-round voyage experience
